Lavatory Faucets

THE BOLD LOOK  
OF **KOHLER**<sup>®</sup>

## Karbon Water on Your Terms.

Experience advanced functionality and modern design in a lavatory faucet unlike any other. With two pivoting joints, the Karbon® lavatory faucet lets you put water exactly where you want it when you shave, wash your hands or rinse the basin. Choose from two spray options easily operated at the touch of a button, gentle for personal grooming and robust for cleaning the basin. When not in use, Karbon folds cleanly out of the way, ready for your next move.

Karbon faucets are available for wall- and deck-mount configurations and features two handle options — an easy-to-use single-control joystick for a more custom installation and a widespread option, perfect for a retrofit application. Offered in a range of finish combinations, the Karbon lavatory faucet puts control in your hands and sleek style center stage.
